

Burnham-on-Crouch Town Council
Health and Wellbeing Working Group

Report for Council meeting 7th November 2023

The working group met on Wednesday 25th October. We discussed the H&WB Action plan and agreed some actions which have been included in the copy attached for Councillors to review. We would like Council to approve the Action Plan (attached), at the meeting on 7th November so that we can get on with this work.

There may be small costs associated with implementation, but these should be restricted to supporting meetings with Community Leaders, teas, coffees, etc and the creation of leaflets. A small budget of £500 is requested.

Motion – to approve the Action Plan and agree a budget of £500 to cover costs.

The working group also discussed accessibility to allotments for people with disabilities, the possibility of extending the children's playground fenced off area on Millfield, and forging closer links with our three schools, particularly PHSE teachers. We also received feedback from the Citizens Advice Bureau's AGM
